The Mathis Group is a training/consulting company who has been serving businesses, government agencies, and organizations since 1993. Owners Wanda and Keith Mathis pride themselves on offering quality, customized training/consulting that inspires, educates and equips people.

The Mathis Group is a GSA contract holder (GS02F0010V) and has conducted project management, management, and leadership training for several government agencies. Our courses have found their way into the Federal Aviation Administration, United States Coast Guard, Federal Communications Commission, Internal Revenue Service, Drug Enforcement Administration, National Institutes of Health, United Nations, and US Department of Agriculture, just to name a few.

The Mathis Group has been a Registered Education Provider (REP) for Project Management Institute (PMI®) since 2003. We are committed to enhancing the ongoing professional development of PMI members, PMI-certified Project Management Professionals, and other project management stakeholders through appropriate project management learning activities and products. We have agreed to abide by PMI established operational and educational criteria and are subject to random audits for quality assurance purposes. We have over 40 courses in our curriculum which have been registered with PMI and qualify for Professional Development Units.

The Mathis Group began in 2015 our second 7-year contract with State of Kansas to conduct their project management training. Courses range from a 1-day *Fundamentals of Project Management* to a 3-week intensive *Project Management Certification* class. We also continue our work with State of Missouri in providing their project management training on an “as needed” basis. Our work with their different agencies range from *Business Analysis Certification* to *Agile Project Management*.

The Mathis Group is an expert in conducting boot camps for the PMP®/CAPM® (Project Management Professional) exam preparation and the PMI-ACP® (Agile Certified Professional) exam preparation. We conduct public boot camps throughout the year in various cities throughout the United States along with many onsite boot camps in various companies and agencies. We also offer live, instructor-led, virtual boot camps.

The Mathis Group's instructors are experienced, credentialed professionals who are experts in their field. Dr. Keith Mathis is the founder/co-owner of The Mathis Group and often conducts the training days himself. He stays current by teaching project management and leadership courses in the online programs at Liberty University and DeVry University.
