## Teaching Formats

The Mathis Group creates a teaching/learning atmosphere that is very upbeat and interactive. We offer courses in three formats: Face-to-Face, Live Instructor-Led Virtual, and Self-Paced Online.

**Face-to-Face:** In this format, students will use discussions, cases, and group activities to facilitate the course. In each session taught, we use a laptop, PowerPoint, and LCD/Proxima projector to introduce, explain, and summarize key concepts in the core competencies. Participants will interact and engage in discussions and small group analysis as well as debriefs and action plans throughout the entire course. Courses include numerous examples, fun, and ways to engage the participants in a non-threatening manner. Our trainers are available for consultation with the participants.

**Live, Instructor-Led, Virtual:** This format utilizes real-time training that gives the same education and information to anyone around the world that participants receive at an onsite or public seminar. Organizations can cost-effectively provide training by using technology to eliminate travel expenses and using that saving to train more employees.

**Self-Paced Online:** This format offers the same information and expertise as our onsite classes with the convenience of taking the course anytime, anywhere. Students will learn tips, techniques, and processes through online videos, which can be accessed 24/7 and completed at their own pace. All courses, except for Exam Prep Boot Camps, must be completed in 60 days. Students in Exam Prep Boot Camps are given access for 90 days.

Complete course descriptions/objectives can be found at [www.themathisgroup.com](http://www.themathisgroup.com).

**Course Description:** If you are taking this certification course, you probably have some professional exposure to the duties of a project manager, or you may be considering embarking on a career in professional project management. Your ability as a project manager to demonstrate best practices in project management—both on the job and through professional certification—is becoming the standard to compete in today’s fast-paced and highly technical workplace. In this course, you will apply the generally recognized practices of project management acknowledged by the Project Management Institute to successfully manage projects.

This course is specifically designed to provide you with the proven, practical body of project management knowledge and skills that you need to demonstrate project management mastery on the job. This course is a significant part of your preparation for the Project Management Professional (PMP®) Certification Exam.

The course enables candidates to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project management, and seek career advancement by moving into a formal project manager job role, as well as to apply for Project Management Institute, Inc. (PMI®) PMP® certification.

**The Mathis Group PMP® Reimbursement Guarantee:** In the unlikely event you do not pass the PMP® exam the first time, The Mathis Group will pay for your second attempt within 30 days. If you do not pass the PMP® exam the second time, we will pay for the third attempt within 30 days. \*Note: The Mathis Group will pay the retake fee amount that is applied to PMI® members. The Mathis Group will not pay for any rescheduling fees assessed by PMI®.

**Course Description:** Hybrid Project Management is popular because it combines both Traditional and Agile project management methodologies to plan any project regardless of the industry. This course includes teaching and activities that move beyond using the two popular approaches. It includes seldom discussed areas such as adjusting organizational culture, communication, and authority to support a hybrid environment.

This two-day, fast-paced course gives participants skills and techniques for blending a project approach that matches the project to increase success, as well as expand the participants' principles and core knowledge of hybrid project management.

This course is expansive and includes areas left out of other hybrid courses because it goes further than introducing methodologies and processes to openly discuss issues on authority, communication, and culture changes due to the hybrid methodology.

**Course Description:** In the early 1990s, Ken Schwaber and Jeff Sutherland created Scrum as a simplified project management approach. The goal of Scrum is to produce software or a product every 30 days for the customer. Scrum is a straightforward process but not easy to put into place and maintain. It is also not simple to shift from traditional project management to Scrum methodologies and cultures. During this two-day course, participants will examine the beginning framework of Scrum, the roles and responsibilities of team members, and each aspect of running projects using Scrum methodologies. Students will learn how to shift the roles from a traditional project manager to ScrumMaster. The course will include situations to challenge participants with what Scrum is and is not.

**Course Description:** This course is a two-day instructor-led course with an extra free 1-day self-paced component given to attendees. The self-paced free day for attendees will include Advanced Prompt Engineering Skills for Project Management. The third day is only given to those participants in the two-day course.

This two-day instructor-led Unleashing the Potential of Artificial Intelligence in Project Management will explore the breadth and depth of artificial intelligence (AI) and its applications in project management. The course will provide an understanding of AI’s challenges while delving into how AI can revolutionize project management industries. Participants will examine the ethics associated with AI and gain insights into the future trends and impact of AI on project management. By the end of the course, participants will have a foundational knowledge of AI, the ability to create prompts for AI output, and an understanding of how AI could work in project management.

The free one-day, self-paced Advanced Prompt Engineering and Writing Skills course helps participants use various forms of AI, such as ChatGPT, Gemini, and Claude, to begin writing customized prompts to use AI to assist the project. This course moves past the two-day course’s foundational knowledge of writing prompts and goes through a project showing each beginning prompt and how AI responds with specific outputs.

*PMI - Authorized Training Partner*

Over the last several years, Dr. Keith Mathis has emerged as one of the most effective business trainers in the field traveling throughout the United States, Canada, Mexico and South America. His provocative, informative, and humorous presentations on a variety of organizational development topics are demanded by progressive companies. Keith never merely talks to an audience, but he also seeks to involve them in his presentations through high content and numerous illustrations. Intellectually demanding of himself, Keith demands no less of his audiences.

As a consultant who specializes in project management and organizational behavior/development, he comes with thousands of presentations to every kind of organization. He is flexible by teaching in full-day formats, multi-day conferences or one-hour keynotes for conventions. His work includes teaching corporate America skills on topics such as team building, leadership, motivation, conflict resolution, project management, supervision, performance appraisals, goal setting and numerous other organizational proficiencies. His problem-solving expertise provides him with the ability to help companies in the solving of the most complex difficulties.

He is founder of The Mathis Group, based in the Springfield, Missouri area. The Mathis Group, a Registered Education Provider with PMI, offers a variety of courses which provide Professional Development Units (PDUs) for individuals who are seeking certification through one of the credentials of PMI®. The Mathis Group is also a woman-owned small business with a Federal GSA contract. Project Management training has been conducted for agencies such as FCC, USDA, and FAA. The States of Missouri and Kansas have contracted for training, as well as non-government organizations such as PPL Corporation and JP Morgan.
